## Former Convict Held Here On Robbery Armed Charge

### Released From Marquette, In A Jam Immediately

Frank Hunt, a three-time loser in crime, is being held in the Crawford County Jail under a \$5,000 cash bond, awaiting trial in the October term of Circuit Court on a charge of robbery armed.

Hunt, who hit the headlines all over the state early this summer when he protected Governor G. Mennen Williams in an attempted prison break at Marquette prison, was released from that institution last week. His release was brought about, it was reported, ahead of time due to his action during the melee in the prison kitchen in which several long term convicts attempted to grab the Governor of Michigan and force their way out of the prison with him as a hostage.

Hunt apparently tried to hitchhike to Detroit after his release from the Upper Peninsula prison and finally was picked up near Indian River on US-27 by Leon Smith, an elderly motorist of Royal Oak who was headed south. Near the Sand Hill curve on US-27, just north of Grayling, Hunt pushed a hard instrument into Smith's back and forced him to drive into a small trail road. Once off the highway in the shelter of the trees, Hunt forced Smith from the car tied his hands behind his back and his ankles to the car.

He planned on forcing Smith into the trunk of the car, but the Royal Oak man talked Hunt into laying him on the back seat. This happened at about 7 P. M. on last Thursday, August 24. Hunt then drove to Detroit and after wiping the car clean of any of his fingerprints, released Smith and fled.

The robbed motorist immediately went to the State Police post and told of his harrowing experience and described his assailant, giving special attention to his suit and the outstanding facial features of large eyes. The description was immediately put on the air and the Marquette State Police Post responded with the fact that the suit described sounded like the clothing presented to released prisoners. A check revealed that Hunt was released on August 24. A pickup order went out to Detroit and Hunt was captured. He was positively identified by Smith in a lineup and was ordered transferred to Grayling as the County Seat of the County where the robbery occurred.

### Good Turn Out At Beaver Creek Reunion

In spite of the bad weather a large crowd attended the Beaver Creek Farmers and Old Timers picnic held at Beaver Creek Town Hall Sunday afternoon and evening. The Jackpines beat the Hardwoods in baseball 10 to 8.

The boys race for 6 to 9 years old was won by Short 1st, Hatfield 2nd, and E. Short 3rd; the girls race for 6 to 9 years old was won by Canfield 1st, Mortensen 2nd and Canfield 3rd; boys 10 to 14, B. Canfield 1st, Canfield 2nd, Bristow 3rd; girls, Canfield 1st, Mortensen 2nd, Canfield 3rd. The men's race was won by Roy Canfield with Harold John 2nd.

Officers for next year were elected as follows: Charles Hatch, president; Harold John, secretary and John LaMotte, treasurer. George Annis was made honorary president of the association. He was the very first association president and folks were happy to see him able to be present at the reunion.

### Hold Rites For Walter E. Mikkelsen

Final rites were read at the Wilkie Funeral Home, Detroit, at 2 P. M. on Saturday, September 2. The deceased, Walter E. Mikkelsen, who lost his life in an automobile train collision in Grayling on August 28, was buried in the St. Peter's cemetery in Grayling.

The son of Viggo and Ione Mikkelsen, he was born in Detroit, June 1921. He attended Cooley High School and Custer Post High School. He was a member of the U. S. Coast Guard from September 12, 1942 to 1946. On December 6, 1943 he married June Mary Farmer. Mr. Mikkelsen was a member of the Danish Lodge Number 331. An upholsterer by trade, he had many friends in Grayling as he had spent great deal of time at the family cottage at Danish Landing, Lake Margrethe.

Surviving are his wife, (who is still in serious condition at Mercy Hospital, Grayling), his parents, and a brother, Norman E. Mikkelsen of Detroit.

Here following the accident were Mrs. Mikkelsen's father, Walter L. Farmer, brother, L. L. Farmer, her sister and husband, Mr. and Mrs. Harold Mendenhall, Mr. and Mrs. L. J. Rasmussen, and Miss Caroline Blomfield all of Detroit, who very much will thank Mr. and Mrs. Alfred H. son and Sam Rasmussen for the kindness and hospital care while they were here.

## School's Open Watch For Kids

This is back-to-school month when any child on a curb or parkway must be a Go Slow sign to any driver, Dr. Albert Heustis, State Health Commissioner, said today.

Give a child a "brake," he said. Give a child a "brake" by making sure that the child is in the vicinity of schools, playgrounds, bus stops and crossings just before and after school. The first days of school are so exciting that a child just forgets to be careful.

Cautious speed and watchful drivers can save many lives this month. But the driver is not always at fault when a child is injured or killed by a car, the doctor said.

Parents must teach their children by example, as well as by word of mouth, how to cross a street, not to take risks, and not to play in or near the street. They must make sure that their children can safely operate any wheeled vehicles they may use — roller skates, tricycles, bicycles, motor scooters or automobiles. They must warn their children to be alert for the driver who may swing around a corner, start up quickly after a stop light or pull around another car.

Careful drivers plus careful children can save many young lives in Michigan this fall, the Commissioner concluded.

## Polls Open Tuesday For Fall Primary Election

### Eight Races On Two Tickets Election Feature

### Sheriff's Race On Both Tickets

The polls will be open next Tuesday, September 12 for the Fall Primary Election with the Republican and Democratic tickets offering a total of eight races. For County Offices, the Democrats offer two candidates for Sheriff.

On the Republican ticket, five men are running for the post of Republican candidate for Governor, headed by former Governor Harry F. Kelly, Secretary of State Albert J. Engle, former Lt. Governor Eugene C. Keyes and Thomas S. Leith. A four way race is presented for the Lt. Governor's post on the Republican ticket with Senator William G. Vandenberg, Liquor Control Commissioner Harry Henderson, Dan Mills and LaVerna M. Laubensager vying for the selection.

Veteran Congressman Roy O. Woodruff is facing stiff opposition to win the Republican party nomination from Elford A. Cederberg, young, vigorous Mayor of Bay City, while incumbent State Senator Charles T. Precoat faces the challenge of Ben Carpenter, former state senator from this district who dropped out of politics several years ago.

Emil Peltz, incumbent State Representative faces a race with Elmer A. Radka, Rogers City attorney and Max G. Kelsey, president of the village of Roscommon. Charles E. Moore is unopposed as the party's selection as candidate for Prosecuting Attorney, while incumbent Republican Sheriff William F. Golinick is opposed by Paul H. Crawford and Homer G. King. Leo E. Lovely, incumbent Republican County Clerk is unopposed as is Registrar of Deeds Fred Niederer. Archie W. Howse is unopposed as the party's selection as a candidate for County Treasurer. Dr. Stanley A. Stealy and Alfred J. Sorenson, present County Coroners are running for the office unopposed on either ticket.

The Democratic ticket presents incumbent Governor G. Mennen Williams and Lt. Governor John W. Connolly unopposed as the party's selection to return to office. A three way race for Representative in Congress for the Tenth District finds as candidates Fred J. Koenders, Charles H. Cliff and William J. Kelly. William Roach for State Senator and Lee A. Bennett for State Representative are unopposed and will be the party's selections for that post in the November election.

For County offices, the Democratic ticket has incumbent Prosecuting Attorney Robert F. Neffie unopposed for election to run in the November elections as the party's candidate as is Albert L. Roberts, present County Treasurer, who is now serving a term of office on appointment by a county committee on the resignation of Col. Roy Sindlinger, who was also appointed when elected County Treasurer James Post resigned to become acting Postmaster of Grayling. Stanley Flower of Grayling is the unopposed party selection for the post of County Clerk while Virgil K. (Jack) Wade and Robert E. Nelson are both candidates for nomination as the Democratic candidate for Sheriff in the November election.

The race for Sheriff on both tickets as well as for United States Congressman, State Senator and Representative is expected to draw a much larger vote than is usually cast in Crawford County in a September Primary Election.

## Payne-Shaw WED IN CHURCH RITES

Ruth Rosalind Payne of Frederic became the bride of Richard John Shawl of Flint in rites read at the Frederic Bible Church on Saturday, September 2. Rev. Lucien Hall officiated at one thirty in the afternoon in the presence of one hundred and fifty guests.

The bride is the daughter of Mrs. John Payne and the late John Payne and Mr. Shawl is the son of Mr. and Mrs. Henry Shawl. The bride wore a white broad edged gown featuring a full skirt with pinner hip line and ending in a short train. Her face edged veil was finger tip length and fell from a white satin cap edged with pearls. She carried a lavender orchid on a lace fan.

Miss Edith Joan Payne, sister of the bride was maid of honor and was gown in lace covered pink satin styled similar to the bride's dress.

Miss Gretchen Christine Payne of Bay City, the bride's sister, Miss Sally Griebel of Flint and Miss Virginia Kaiser of Frederic as bridesmaids wore blue, green and rose satin respectively. All attendants wore white carnation corsages.

Emerson Shawl of Flint was best man for his brother. Guests were seated by Albert Shawl of Flint, John Madill of Frederic and Murray Bindschattel of Corunna.

Mrs. Payne wore green corded taffeta and black accessories for her daughters wedding and Mrs. Shawl a black and white sheer and black accessories. Each wore corsages of yellow roses.

The Frederic Town Hall was decorated with arrangements of garden flowers for the reception that followed. A three-tiered wedding cake topped with miniature bride and groom centered the refreshment table.

Guests were present from Bay City, Corunna, Detroit, Essersville, Flint, Lansing, Lewiston, Mayville, Munger and New London, Conn.

Following a honeymoon trip in Canada and Niagara Falls, Mrs. Shawl will make her home in Flint and the groom will join the armed forces September 11.

As preparedness is emphasized throughout the State, Michigan moves its machinery along to recruit 1,500 air raid spotters. Detroit's defense will be tested October with a simulated atomic bombing of key installations.

Michigan will have towed physicians and dentists in the near future. Congress is enacting legislation to draft needed medical men for military hospitals. Forecast at Washington: Lifting of selective service ban on drafting of married men, 18 through 25.

The legislature's economy program did not anticipate K-Day and resultant inflation. (Note: Wholesale prices index soared 20 percent in 60 days). University of Michigan's President Ruthven warned legislators that the low operating budget (\$11.5 million instead of \$13.8 million) has resulted in its "worst crisis in 50 years". Employees are demanding higher wages recently granted by GM, Chrysler, Packard.

Meanwhile the political scene moves along as usual. Mud slinging has been at a minimum thus far. But Republican Fred Alger says Governor Williams has been creating disharmony in Michigan to win re-election. Mrs. Williams, in turn, states the Republicans believe in government for the few.

A move may be made, according to political seers, to slip Detroit's John Gibson on the 1890 Democratic slate in the hope his popularity with the CIO will weld the big union to the Democratic fold this fall.

If the war picture is discouraging, Michigan's fall crops, at least, are booming with beaming reports from all sectors. Only major exception in the field of plenty is the prospective field corn harvest.

And car dealers have been warned that competition is near again despite possible shortages. J. C. Doyle, central regional manager of the Ford Motor Co., tells them: "You have been given a reprieve from competition" but it's a temporary reprieve. "This is not a bumper for the next few months but for the future."

There will be no services at the Grayling Evangelical Lutheran Church on Sunday, September 10, but on Sunday, September 17, Rev. Hans Juhl will be here to preach the sermon. It was announced by the church board that Rev. John Enslmann of Clinton, Iowa, had accepted the call to serve the local church and would be here sometime in October. Further information will be published later.

The Grayling District Registered Graduate Nurses Association will hold a potluck dinner at the home of Mrs. Ethel Guggisberg in Grayling on Monday, September 11 at 8:30 P. M.

## Constructive Criticism Needed

In a recent syndicated column David Lawrence says: "Whatever the immediate significance of the Korean war, a profound effect has been produced upon the long-range military policy of the United States. Never again can America depend on that narrow concept of a one-weapon strategy."

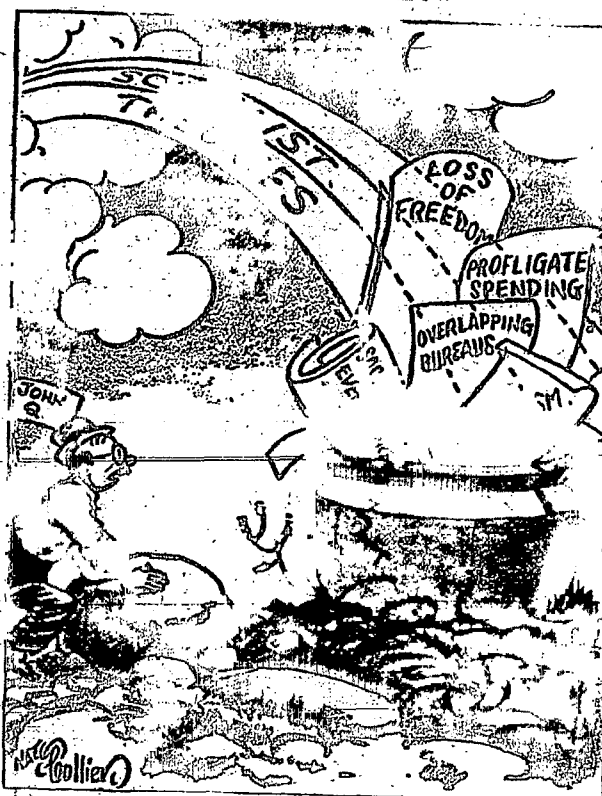

Mr. Lawrence then raises some very important points about which all our people have been thinking. Who is responsible for having deprived the Navy of its status as a "fleet in being"? Who took away from the United States Army its own airplane units capable of operating always with ground troops? Whose idea was it that land armies of the United States could fight without "armored divisions of tanks"? Who deprived us of overseas bases—floating or fixed?

Mr. Lawrence is bitter in his condemnation of civilian or military officials for what he says is one of the "worst blunders in all American history. It is a blunder inexcusable because it defied the plain lessons of history taught in every naval or military war college in every nation of the world for centuries past."

"The price of peace is never inexpensive and the price of survival always is economic discomfort and sacrifice."

Tragically and inexcusably the exigencies of domestic politics cut the ground from under national defense at the moment when decisive strength was needed. As a result, thousands of Americans will lose their lives.

The kind of criticism backed with facts that is now being leveled at those in control of the military establishment is too serious to gloss over, or attempt to muzzle with admonitory advice that it is ill timed. The confidence of the people in the wisdom of top military policy has been shaken. Our honest correction of mistakes can restore that confidence.

From where I sit... by Joe Marsh

Squint's Drumming  
For Fair Play!

Squint Miller's mighty proud of the bit he owns that fronts on River Road—one of the prettiest spots around here.

He's been in a stew about it lately, though. Seems that trash-dumpers take one look at his property, stop their car or truck, and out goes a load of rubbish, spilling all over his place and the roadside, too. Wouldn't that make you mad?

Last night Squint dropped by the house. Over a friendly glass of beer, he tells me what he's done. "I put a couple of empty oil drums

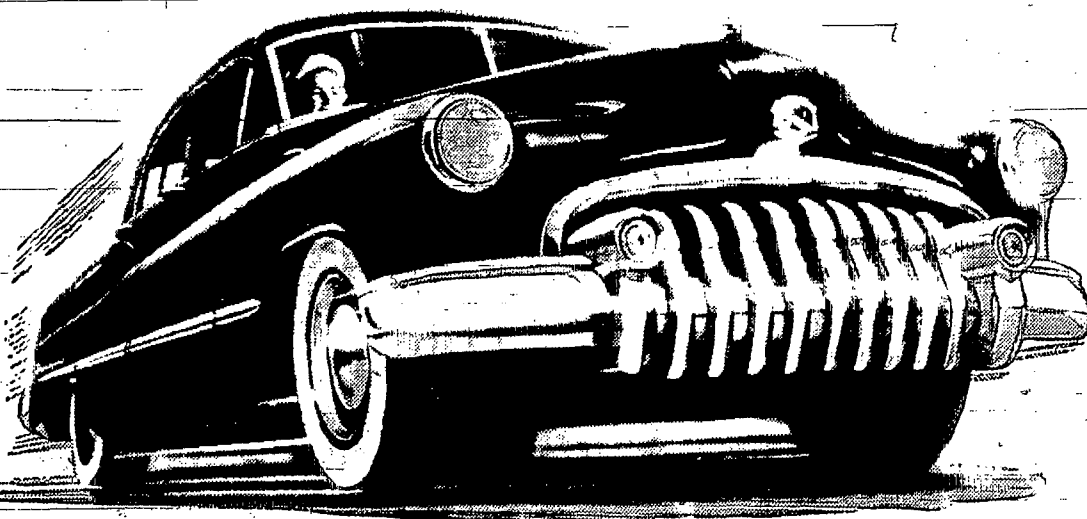

out there," he says, "with a big sign reading: 'If you must dump trash—use these—I like to keep my property clean!'"

From where I sit, Squint's sign should make any would-be roadside trash-dumpers pretty darned ashamed of themselves. Now and then some folks just have to be reminded that they ought to have as much regard for their neighbors' rights as they do for their own.

Thinking of the Long Pull?

Better Buy Buick!

If that car of yours has put its best days behind it, there's no time like right now to think about starting out afresh with a taut, new, up-to-the-minute motorcar with all its mileage still in it.

And there's no better place in the world to start than with the beauty pictured here, for a variety of reasons.

For one thing, this Buick SPECIAL is a quick-stepping Fireball valve-in-head straight-eight that's priced lower than some sixes.

For another, it's built with typical Buick ruggedness through and

through—a husky that can take a lot of years without crying "Uncle!"

Then, too—this high-styled beauty is proving to be one of the most economical Buicks ever built—easy on gas, easy on upkeep, easy on you in its soft, floating, light-handling comfort.

It even comes with Dynaflo Drive\* if you like—and Dynaflo means that you will never have to service or replace a friction clutch, and that rear-end or transmission servicing—even engine upkeep—are cut to a minimum.

\*Standard on ROADMASTER, optional at extra cost on SPECIAL and SPECIAL models.

Of course, you can't see all of this in the brief span of a trial drive.

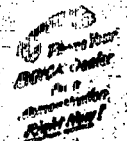

But you can experience the good solid feel of Buick strength beneath you. You can satisfy yourself on the lightness of the controls, the utter smoothness of Dynaflo, the quick surge of Buick's Fireball power.

All such things will tell you that this is a car you'll be glad to live with for a long time to come—and you need only to ask your Buick dealer for a demonstration to see precisely what we mean.

Why not call on him soon to talk about signing up?

**Grayling Chamber Has Deferment Information**

August 30, 1950 — The U. S. Chamber of Commerce, Washington, D. C., in a letter dated August 28, 1950, to the Grayling Chamber of Commerce has furnished additional information on the Department of Defense policy with respect to reserve military personnel and those subject to selective service.

concerned with reserve military personnel since the local draft board is responsible for policy on deferments of persons registered with that agency. However, the letter did state that in the case of those subject to the selective service act, deferments will be considered in case of extreme hardship.

Reserve personnel will not be given deferments from call to active duty based on family dependents since such personnel are liable to call in time of need. Deferments can be granted to reserves on the basis of occupation or in the case of extreme hardship. Applications for deferment of reserves can be made at any time by the reserve or his or her employer, but such requests will not

be acted upon until the individual is actually ordered to duty. Applications must be addressed through the proper command channels, such channels as are outlined in a file in the hands of the Grayling Chamber of Commerce, Public and Governmental Affairs Committee. This committee also has on hand the official U. S. Department of Commerce list of Essential Activities and the U. S. Department of Labor list of Critical Occupations, the job classifications in either of which may be the basis for deferment of reserve personnel.

It is to be understood from the information at hand that when personnel are deferred by their proper command, that the time limit is 6 months and that the application must be renewed at the end of that time. Renewals will apparently be more difficult to obtain, as it is assumed that in many cases during the first deferments, new personnel will be trained to replace the reserve being called.

The correspondence in connection with the above and the lists referred to are available upon request to John H. Peterson at the Grayling Laundry and Dry Cleaners, Grayling.

**State's Roads Follow Indian Trails  
in Large Part, Wayne U. Study Shows**

Leonard Clarkson, a Wayne student descended from a full-blooded Indian, dons his forebears' traditional costume to demonstrate one method Indians used in marking trails across the state. A supple tree branch was pointed in the direction that the trail ran, and tied with thongs to grow in this position. The highway being inspected by Wayne coeds is U.S. 16, which follows an ancient Indian trail.

Michigan's major highways, which comprise one of the finest road systems in the nation, were at one time only faint trails over which passed moccasined feet as Indians traveled to hunting grounds and tribal gatherings.

It was native Indians of the state who were responsible in large part for the routes followed by our modern highways, says Dr. Floyd Stigebauer, professor of geography at Wayne University in Detroit, after reviewing the travel networks of the past.

The red-skinned engineers, who planned the quickest means of travel along waterways and other routes of few obstacles, laid out their trails without surveying instruments. Yet modern engineers liked the results so well that the great thoroughfares we see today closely parallel the original routes.

Such a trail was the Potawatomi, which ran from Detroit to Chicago. At Ypsilanti the Sauk Trail, coming from the south, joined it to form a fork. Today the fork remains; the Potawatomi trail now being U.S. 12, and the Sauk Trail U.S. 112.

Another Indian route, the Saginaw

(or Ottawa) Trail, has become the Dixie Highway or U.S. 10, running from Detroit northward through Saginaw.

Other thoroughfares of today which were formerly Indian trails include U.S. 16, another Ottawa trail, running from Detroit to Grand Rapids; U.S. 25 and U.S. 23, along the eastern shoreline; U.S. 2, from St. Ignace to Sault Ste. Marie; and M. 35, from Escanaba to Marquette. The great pattern of trails which made it possible for Indians to move swiftly over the state's area on their missions of peace and war also determined the sites for many of Michigan's cities, Dr. Stigebauer shows.

First, traders' posts were set up where the trails crossed. Later the posts became focal points for Indian settlements and trade, and eventually blossomed into major Michigan cities of today.

Detroit, Grand Rapids, Kalamazoo, Jackson, Saginaw, Pontiac, and Niles can be traced back to Indian settlements located at strategic points. So too, Escanaba, St. Ignace, Sault Ste. Marie, and Marquette in the Upper Peninsula were founded by Indians.

**M. S. C. Opens 96th  
Year Sept. 18**

East Lansing — Michigan State College will open for its 96th year September 18, when approximately 15,000 students are expected to register for fall classes.

New and returning students will find better housing facilities, new courses and a full program of extra-curricular activities to get them into the swing of things on the Spartan campus.

Registration and freshman orientation week will be September 18-22, and classes will begin September 25, according to Registrar Robert S. Linton.

Most notable change in campus population will be the anticipated sharp decline of veteran enrollment from the 44 per cent average recorded in the 1949-50 year. Men still will outnumber coeds by a three-to-one ratio, Linton said.

For the first time since the war, there will be no critical shortage of housing, either for single or married students. With the completion of the 1,600-capacity Shaw Hall for Men, approximately 8,000 students will be housed on campus.

Highlighting the new courses offerings will be a four-year course for training of professional nurses, in addition to a few television courses.

Three newly-created divisions, representing expansion and revision of existing curricula, will be in operation for the first time, offering degree courses in six new fields. The new units are the Division of Conservation, Division of Business, and the Division of Hotel, Restaurant, and General Institutional Management.

## DON'T BE MISLED

We are told that a candidate for State Representative on the West side of the District has announced himself as opposed to legislation that would give us better roads, and that signs appear in gas stations reading substantially as follows: "No 67% Gas Tax Increase. Vote for"

It sounds good but the voter should analyze the slogan.

Michigan has always financed its highway program from gas and weight taxes and has not allowed any funds so raised to be diverted to other state expense. It is a sound policy.

It does not necessarily follow that an increased gas tax will mean an increased cost of gasoline. Other states with a much higher gas tax have practically the same or lower gasoline cost. The citizens of the State of Michigan are paying for the roads of other states. The Oil Companies have absorbed much, if not all of the tax.

The tourist trade in Michigan is the second largest business in our State, exceeded only by the Automobile Industry. You Citizens living in the Tourist areas receive a great portion of the income derived from the Tourist business. You Citizens living in small communities renting tourist rooms, owning and operating hotels, tourist cabins, gas station owners, farmers, as a matter of fact, any business and everyone living in a tourist area directly or indirectly receives the benefit of that business. Good roads are the most important factor in bringing the tourist into your communities. Good roads can be obtained only through a sound, fair, and just road tax legislation.

You people depending on the Tourist Trade are cutting your own throats if you oppose any program which will give you better highways in any part of our state. The highway improvement program is one of the most vital subjects in this election. Two big sources of tax revenue for any road program are the buses and trucks. They should contribute the largest part of any highway financing. They oppose increase in weight and gas tax for "selfish" and "profit" reasons, not because they are worried about the man who drives the roads.

The Excessive Damage to State Highways is caused by the large trucks because of the great weight and by overloading. This was emphasized in July when the State Highway Department put on a campaign to limit the nuisance by enforcing the law controlling weights carried by trucks, and 609 summonses were issued 297 companies for overloading. In one week 51 trucks were caught with overloads of 203,270 pounds. Any candidate who is running on the platform "no more gas tax" infers that other candidates approve higher taxes. He is merely trying to influence your vote in a cheap way.

Your State Representative Emil Peltz is one of the men in the legislature who seeks to have the state road program financed by having the Oil Companies and The Trucking Companies pay a fair share of the cost. You will do well to keep PELTZ YOUR REPRESENTATIVE.

**FOR CONGRESS**

(Republican 10th District)

Elford A. Cederberg

## LET'S FACE THESE FACTS:

1. After 32 years the Tenth District needs and deserves a change.
2. Our neighboring Congressional Districts have seen fit to send to Congress young men—Gerald Ford of Grand Rapids, and Charles Potter, of Cheboygan,—Both in Their Early Thirties. Both are being returned again without party opposition. The Tenth District should also send a young man Mayor Cederberg to Congress.
3. Mayor Cederberg is well qualified for the office as he has a fine Political, Business, and Military background.
4. The weight of the incumbents 74 years warrants his retirement. He has recognized this fact. He is quoted Two Years ago in the August 22nd, 1948 issue of the Bay City Times, "I hope to take myself out of public life in the not too distant future. I'd like to have two or three years to rest." Again, Two years ago in the November 4th, 1948 issue of The Bay City Times quotes him as saying that that was the "last time" he would seek to return to the House of Representatives.
5. You should know that a Congressman with 32 years service may retire on a special Congressional pension of over \$6,000 per year even when defeated. Business and Industry require that you retire between 65 and 68. Why Not Government?
6. Don't be misled. When a Congressman is retired or is defeated his place on Committees is not lost to the party. They are filled by other party members. NO MAN IS SO IMPORTANT THAT HE CANNOT BE REPLACED.

Elect a man who will serve his district as he has already served his city — with vigor and ability, his country with courage.
